Cloud Connect

Key Features and Benefits

Connect your offices, data centre or Private IP WAN directly into your Cloud Compute environment via a dedicated direct connection with absolutely no contention.

☑ **Unlimited Data**
No shaping, No slowdown.

☑ **Secure**
ONQ offers the ultimate in secure solutions.

☑ **Technology Choices**
Optimize performance via our own dedicated network or in collaboration with our extended reach partner.

☑ **Unrivalled Performance**
Delivered via dedicated capacity and low latency.

☑ **Service Guarantees**
Business grade SLA's to guarantee continuity of service.

☑ **Priority Support**
Expert priority support for all businesses from a helpdesk dedicated to business – 24/7/365.
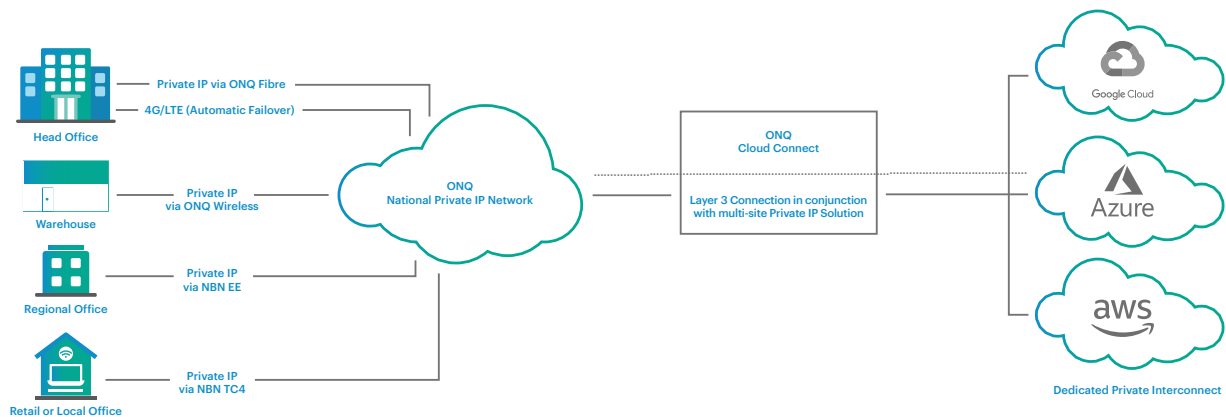

How Cloud Connect works – Layer 2

Cloud Connect is a direct, secure Layer 2 Point to Point solution between your network and your cloud service provider of choice. Delivered either to your Data Centre environment or directly into your office, with the opposite end of the circuit presented to your chosen Cloud Provider as a Virtual Connection.

Dedicated Private Interconnect

How Cloud Connect works – Private IP WAN

Integrate Cloud Connect with your existing Private IP solution, and terminate your dedicated cloud connection into your MPLS WAN, enabling dedicated connectivity to your cloud environment for all business locations, with the addition of more granular control over routing at Layer 3.

Head Office
- Private IP via ONQ Fibre
- 4G/LTE (Automatic Failover)

Warehouse
- Private IP via ONQ Wireless

Regional Office
- Private IP via NBN EE

Retail or Local Office
- Private IP via NBN TC4
