Managed Business Solutions Data Centre Colocation

Key Features and Benefits

ONQs Data Centre services guarantee maximum uptime and reliability for your mission critical Compute, Storage and Networking infrastructure.

Robust Infrastructure

All data centres include N+1 power redundancy, standby generator power and N+1 Redundancy for Air Conditioning as a minimum.

Flexible Solutions

From 1RU to house a NAS for Offsite Backups, all the way through to full height racks spanning multiple data centre facilities, we can help.

National Footprint

Access to world class facilities in major metro centres via our partnership with NextDC and iseek, along with our own EdgeCentre Nodes in Regional QLD (Mackay, Townsville & Cairns).

Highly Secure

Each data centre deploys a range of physical security measures, ensuring robust security for your infrastructure and data.

Well Connected

Secure and dedicated connectivity directly into ONQs core network. Easily interconnect with other Telcos and Cloud Providers.

Dark Fibre Connectivity

Available from our EdgeCentre Node locations, to NBN Pops and Telstra exchanges in each location.

Redefining the way Business Telco in Australia should be.

We are Australia's most trusted telecommunications partner for businesses that demand reliability above everything else.
