### Your Choice of Network Technologies
### to suit your business needs.

The advantage of having our own network, means you can enjoy the benefits that come from technology choices provided either directly by ONQ through their Fibre or Fixed Wireless network or in collaboration with NBN, or via our extended partner reach. The choice is yours.

# How our **Business Internet Services** work

Our ultra-fast Standard and Premium Business Internet Services offer a range of capacities from 50Mbps to 10Gbps nationwide, providing dedicated and resilient Internet connectivity with the ability to scale as and when required. To connect your business location to our network, we can leverage a number of different access methods, including our own Fibre and Fixed Wireless Footprint, plus NBN and other third-party networks.
