

Connectivity

# POI Connect

# Connectivity POI Connect

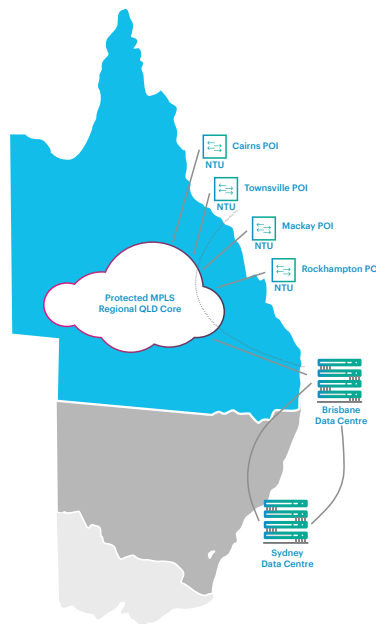

## Key Features and Benefits

Leverage our Regional Queensland network to transport your NBN traffic from the POIs to your designated Point of Presence.

- Control**  
Layer 2 Ethernet Transport for RSPs that have onboarded with NBN Co directly to provide more control and visibility.
- Locations**  
Currently available at Cairns, Townsville, Mackay, Rockhampton.
- Interconnection options**  
For either physical NNI or vNNI.
- Flexible**  
Flexible commercials, with the option of capacity to be shared across Regional POIs, with shaping at the Headend.
- Secure**  
Point to Point E-Line (EPL) delivered via a fully protected IP/MPLS core.

## How does POI Connect work

Delivered as a Point-to-Point EPL, our POI Connect service enables service providers to leverage our fully protected Regional Queensland backbone to transport traffic from Regional nbn POIs to your Capital City POP.

**Redefining the way Business Telco in Australia should be.**

We are Australia's most trusted telecommunications partner for businesses that demand reliability above everything else.
